Created by James M. Kouzes and Barry Z. Posner in the early 1980s and first identified in their internationally best-selling book, *The Leadership Challenge*, The Five Practices of Exemplary Leadership approaches leadership as a measurable, learnable, and teachable set of behaviors. After conducting hundreds of interviews, reviewing thousands of case studies, and analyzing more than two million survey questionnaires to understand those times when leaders performed at their personal best, there emerged five practices common to making extraordinary things happen. The Five Practices are:

The Leadership Practices Inventory (LPI) instrument is an essential tool to help you gain perspective into how you see yourself as a leader and what actions you can take to improve your use of the Five Practices, which research has demonstrated, year after year, make for more effective leaders.

LEADERSHIP PRACTICES INVENTORY

The LPI measures the frequency of 30 specific leadership behaviors on a 10-point scale, with six behavioral statements for each of The Five Practices. You rated how frequently you engage in each of these important behaviors associated with The Five Practices. The response scale is:

RESPONSE SCALE	1-Almost Never	3-Seldom	5-Occasionally	7-Fairly Often	9-Very Frequently
RESPONSE SCALE	2-Rarely	4-Once in a While	6-Sometimes	8-Usually	10-Almost always

In the following report pages, you'll see your responses presented in various manners.

The Five Practices Bar Graphs

These bar graphs, one for each leadership Practice, provide a graphic representation of your total rating. Total responses can range from 6 to 60, which represents adding up the response score (from 1—Almost Never to 10—Almost Always) for each of the six behavioral statements related to the Practice.

- 2. Identify those constituents who best embody your values and priorities and think of three ways to single them out in the weeks to come, to praise and reward them.
- 3. Tell a public story about a person in your organization who went above and beyond the call of duty.

Percentile Ranking

The leaders and observers who make up the LPI database include a mix of males and females at all levels, from all types of organizations, and from all over the world. This page compares your responses to all Observer responses for other leaders who have taken the LPI. The horizontal lines at the 30th and 70th percentiles divide the graph into three segments, roughly approximating a normal distribution of scores. Each line on the graph shows what percentile your response falls into for each Practice. For example, if your score for Model the Way is at the 50th percentile, half of the leaders in the entire LPI database were rated higher (by their Observers who also rated them on the Practice), and half were rated lower.
