

Student Leadership Practices Inventory® 360

BY JAMES M. KOUZES & BARRY Z. POSNER

Group Assessment Report

Prepared for Leadership 101 | June 5, 2021

Group Summary by Leadership Practice

This page displays the average Self and Observer responses for all individuals participating in this group. The AVG column shows the averages of each type of Observer responses for each of The Five Practices. Responses can range from 6 to 30. The STD DEV measures the distribution of scores around the mean (average score). The standard deviation is a measure of how spread out the responses are on your group's combined Student LPI 360 report. A low standard deviation indicates that observers gave similar responses to the items on the Student LPI 360; a high standard deviation indicates that observers' responses varied quite a bit.

		AVG	STD DEV
 Model the Way	Self	19.0	1.4

Group Leadership Behaviors Ranking

The following page shows the ranking, from most frequent to least frequent, of all 30 leadership behaviors based on the average of your group's Observers' responses. Horizontal lines separate the 10 most and the 10 least frequent behaviors from the middle 10. The response scale runs from 1-Rarely or Seldom to 5-Very Frequently.

	LEADERSHIP PRACTICE	SELF	OBSERVERS' AVERAGE
22. Paints "big picture" of group aspirations	Inspire	2	3.8 *

LEAST FREQUENT

Percentile Ranking

The more than 110,000 students who make up the Student LPI 360 database include a mix of young men and women, ranging in age from their early teens through late twenties, involved in all types of student organizations, and from all over the globe. This page compares the responses of the group, the Self and Observer respondents, on the Student LPI 360.

The horizontal lines at the 30th and 70th percentiles divide the graph into three segments, roughly approximating a "normal or bell-shaped distribution" of responses. Comparing where the group score on each leadership Practice lines up with the percentiles on the vertical axis, gives you an approximation for how frequently the group engages in this leadership Practice in relationship to all the other students who have completed the Student LPI 360. For example, if the group score for Model the Way is at the 55th percentile, this means that 45 percent of all the students who have completed the Student LPI 360 have rated themselves as responding more frequently than this group has on this leadership Practice; or, alternatively, that 55 percent of the students who have completed the Student LPI 360 have rated themselves as responding at or below this level of frequency in this leadership Practice. Similarly, if the score from the Observers is at the 35th percentile, this means that this group views the use of this leadership Practice at the same level of frequency as do 35 percent of all respondents, or below the level of frequency of 65 percent of those who have completed the Student LPI 360.
